## **InNovo Partners Announced as Finalist for AUVSI XCELLENCE Awards**

*Awards ceremony at AUVSI XPONENTIAL 2020 in Dallas, Oct. 6.*

**ARLINGTON, Va.** — InNovo Partners' iPaaS has been named as a finalist in the Commercial / Enterprise Operation or Solution and Services categories of the XCELLENCE Awards by the Association for Unmanned Vehicles Systems International (AUVSI). InNovo Partners was selected from a pool of accomplished applicants as one of several finalists. **Winners will be announced during an awards ceremony at AUVSI XPONENTIAL on Tuesday, Oct. 6 from 4:00 p.m. to 4:45 p.m. CDT at the Kay Bailey Hutchison Convention Center in Dallas.**

InNovo Platform as a Service (iPaaS) is an advanced intelligent video integration solution (IVS) that uses computer vision enabling deep learning (DL) and artificial intelligence (AI) from edge to cloud devices to extract meaningful transportation insights and analytics.

iPaaS allows for dynamic and highly accurate measurement of the transportation network performance through the delivery of traffic analytics in real time or through batch processing.

Through deep learning, artificial intelligence, and computer vision techniques, iPaaS detects, identifies and classifies vehicles dynamically through the processing of videos streams from legacy systems such as CCTVS cameras, and unmanned systems such as drones.

"The AUVSI XCELLENCE Awards celebrate the achievements of individuals and organizations who have applied unmanned systems technology to create solutions to address a range of challenges affecting business and society," said Brian Wynne, president and CEO of AUVSI. "AUVSI is pleased to recognize these finalists for their perseverance and dedication to turn dreams into reality."

XPONENTIAL offers a broad-based and balanced educational program brimming with cutting-edge content and inspirational insights, ranging from policy implications and technical challenges to use cases and best practices across vertical markets and everything in between. The AUVSI XCELLENCE Awards honor innovators in the unmanned systems industry, including individuals and organizations, with a demonstrated commitment to advancing autonomy, leading and promoting safe adoption of unmanned systems, and developing programs that use these technologies to save lives and improve the human condition.

“We are thrilled to have iPaaS nominated as a finalist of the Technology Innovation AUVSI XCELLENCE Awards” said company co-founder, Claudia Paskauskas. “It is an honor to have iPaaS representing InNovo Partners alongside with other solutions that positively disrupt and enhance the status quo of how things are done by delivering cutting edge technology.”

###

### **About InNovo Partners**

*Founded in January 2017, InNovo Partners LLC (InNovo) specializes in the practice of Transportation Systems Management & Operations (TSM&O) and providing innovative technology solutions to manage the transportation network.*

*Our team focuses on TSM&O Program Development, Computer Vision, Artificial Intelligence, Big Data Management, Data Analytics, Performance Measures, Transportation Planning, Stakeholder Coordination, and Performance Monitoring.*

*Using data science InNovo always aims to find new ways to integrate cutting edge technology such as computer vision, deep learning and artificial intelligence, data management, and data analytics to revolutionize the way our society moves people and goods, safely and efficiently.*

*Our Mission: Foster the use of cutting-edge technology and data to improve the safety and efficiency of the transportation network system.*

### **About AUVSI**

*The Association for Unmanned Vehicle Systems International (AUVSI)—the world's largest non-profit organization dedicated to the advancement of unmanned systems and robotics—represents corporations and professionals from more than 60 countries involved in industry, government and academia. AUVSI members work in the defense, civil and commercial markets. For more information, visit [AUVSI.org](http://AUVSI.org).*

### **About XPONENTIAL**

*AUVSI XPONENTIAL is the largest, most significant event for the unmanned systems industry. The 2020 exhibit hall will showcase hundreds of cutting-edge companies from around the world and the conference will feature educational programming by unmanned systems experts, providing information about the future of policy, technology and business solutions and trending topics.*
